Hard Skill

- html/css
- javascript
- react js
- git
- python
- django frame work
- mysql

Soft Skill

- communication skill
- problem solving
- adaptability
- team work

Education Background

- Besant Technology RajajiNagar
python full stack development
completed in 2024
- S R N M N College of applied science shimoga
Bachelor of Computer Applications
Completed in 2023 83%
- S C M P U College Shikaripur
commerce - cs (computer science)
Completed in 2020

About Me

Motivated and detail-oriented Python full stack developer with a passion for creating innovative web applications. Recently graduated with a degree in BCA and eager to apply my strong foundation in Python programming, front-end development, and back-end technologies in a dynamic work environment. Seeking an opportunity to collaborate with experienced professionals, further develop my skills, and contribute to the success of projects while continuously learning and growing as a developer.

technical skills

Front end Development

HTML/CSS/javascript/react

- Proficient in writing semantic HTML5 markup for structuring web pages.
- Knowledgeable in utilizing HTML5 elements to enhance accessibility and SEO.
- Strong understanding of CSS3 including selectors, box model, and responsive design techniques.
- Experience with CSS preprocessors like Sass to streamline stylesheet development.
- Familiarity with JavaScript fundamentals including variables, functions, and DOM manipulation.
- Basic understanding of asynchronous programming concepts for handling asynchronous tasks.

Data base

my sql

Showcase your proficiency in managing MySQL databases, including creating, configuring, and maintaining databases.

- Highlight your ability to write SQL queries to retrieve, insert, update, and delete data from MySQL databases.
- Mention your understanding of SQL concepts such as joins, subqueries, aggregations, and indexing.

Back end Development

python

- Proficiency in Python programming language, including understanding of data structures, control flow, and object-oriented programming concepts.
- Django: Mention your understanding of Django's Model-View-Template (MVT) architecture, ORM (Object-Relational Mapping), and built-in features for rapid development.

Certifications

Completed the python full stack development course from Besant Technologies, Bangalore.

Completed the web development course from online SmartKnowerTechnologies, Bangalore.
